| CURRENT SPEEDS | NEW SPEEDS | ITC's Fiber-Fast Internet Packages |
|----------------|---------------------------------|---|
| 25Mbps/3Mbps | 30Mbps/5Mbps | |
| 50Mbps/5Mbps | 100Mbps/20Mbps | |
| 100Mbps/20Mbps | 250Mbps/30Mbps | |
| 250Mbps/30Mbps | 500Mbps/50Mbps | |
| 500Mbps/50Mbps | 1Gig/100Mbps | |
| 1Gig/100Mbps | Same Speed with Price Decrease! | |

Questions about your Internet speed? Check your ITC bill online or use the ITC eBill app. To download the ITC eBill Mobile App and install it on your mobile device, search "ITC eBill" in the App Store for Apple devices or Google Play for Android devices.

ITC is starting the new year with a bang!

Our technicians are working to finalize an equipment upgrade that will allow for the increase of your Internet speeds. Once the upgrade is complete, we will start the upgrades. In most cases, ITC will double the download speed for the same monthly cost. For our upper-speed tiers, the price will drop. See the graph above for the details. We anticipate the upgrades to start in late January and carry into February. We will post more details on Facebook and send emails with additional information. With the Christmas season over, you probably have more devices in your home, so this upgrade comes at the perfect time.

ITC has a speed for everyone, whether you have four people streaming at the same time or are the person who is working from home. If you want to ensure you have the right speed, one of our customer service representatives can help you figure that out. With the right Internet speed, anything is possible.

Benefits of Fiber-Fast Internet

What are some of the benefits of ITC's Fiber-Fast Internet? First of all, it's reliable. Fiber Internet can handle more users and more data at consistently higher speeds. There won't be a problem with multiple people streaming in your house if you have the right package. Also, you don't have to worry about peak Internet times with fiber; fiber-optics have unmatched capacity. Secondly, gaming with a fiber connection is incredible. It is all due to the consistency and low-latency that fiber offers. ITC won't throttle your speed, and there aren't data caps.

Blast Wi-Fi Options

Going hand in hand with our Internet is ITC's Blast Wi-Fi Powered by ITC. Blast Wi-Fi includes the lease and support of a dual-band router. We offer an initial site survey to analyze wireless coverage in your home or small business. The connection support of all your devices is also included in this service. You will also have access to an app that gives you a snapshot view of your home or small business. You can view all the connected devices on your network through the included app, set up basic parental controls or a guest network, change your SSID (network name), password, and more! Do all of this from the convenience of your phone or tablet. Two apps are available to add to Blast Wi-Fi; ProtectIQ™, which provides advanced network security, and ExperienceIQ™, for advanced parental controls.

Please contact us at 1.800.417.8667 or www.itc-web.com for more info or to check your speed! Life runs better on ITC.

FREE ROKU CHANNELS

By Michael Martinell, Network Broadband Technician

Did you know that there are free channels available on your Roku device? You need two things to access these channels: a Roku device on your television and an ITC Internet connection. The channels can be added from the Roku main page under Streaming Channels. Many channels play advertisements, and some might require your email address. If prompted to create a password, remember to use one unique to the channel. None of the channels listed here require a credit card or other form of payment for the free content.

Kids Programming

- PBS & PBS Kids – If you have younger kids, this channel has many PBS favorites, including Sesame Street and Curious George.
- HappyKids – This channel advertises itself as a free and safe app designed to educate and entertain kids. It contains the content demanded by younger kids, including Paw Patrol, PJ Masks, Thomas & Friends, and more.

News and Weather

- Haystack News - This news source includes clips from several news stations, including Keloland. It has the same news and weather that is aired on their news programs.
- Weathernation – This is the weather application for your Roku. It contains local forecasts and advisories.
- CBS Sports Stream and Watch Live – The free version of this includes pregame and postgame coverage, sports news, and highlights from a variety of sports.
- Newsy – Keep up to date with this news channel. It includes a variety of stories and documentaries ranging from politics to technology to sports.

Movies, Series, Original Content

- Roku Channel – The Roku channel includes live TV channels, original series, popular movies, and live news coverage.
- Pluto TV – Pluto includes over 100 live television channels, including newer TV shows and movies. It doesn't include the latest episodes but does include series and programming from the last few years.
- Tubi – If you are a fan of everything from Westerns to Comedy, this channel contains thousands of hit movies and TV shows for you to watch.
- Crackle – This channel contains free Hollywood movies and TV series. Drama, action, and thrillers are all available.
- FreeVee from Amazon – This free channel has new releases added every month and, like the others, includes a variety of Hollywood movies, shows, and even exclusive original content.
- Cozy Mysteries – If you are a fan of old black-and-white Agatha Christie-style mysteries, then this is the channel for you.
- Filmzie – This channel has free HD movies and movies created by independent film creators.

DIAL 511 FOR ROAD CONDITIONS

By Holly Stormo, Marketing Communications Specialist

With the winter season comes the likelihood of hazardous driving conditions. It's a good time to remember to get prepared before you travel.

Before heading out, check the road conditions by calling 511 or going to www.safetravelusa.com.

It's also essential to have a survival kit. Your kit should contain a shovel, window scraper, non-perishable food items, candles/matches, extra clothing/blankets, and a flashlight with extra batteries. It is also important to make sure your cell phone is charged.

Be sure to tell someone where you are going and when you should arrive. Be safe; arrive safely!

IT'S FARM SHOW SEASON

It's time for farm show season! ITC will attend shows in Webster and Watertown this year.

The DAY COUNTY FARM, HOME, & SPORT SHOW will be on January 28 at the Webster Armory. The WATERTOWN WINTER FARM SHOW is from February 8-11 at the Watertown Extension Center. These shows are a good opportunity for ITC staff to meet and greet our customers in person. It is also the perfect place to ask questions you might have about your Coop.

If you get a chance, please stop by, check us out, and say hello!

FREE CHANNELS CONT.

- Plex – This channel includes 200 live TV channels and 50,000 on-demand titles from around the world. It includes popular movies, documentaries, family-friendly shows, and much more.
- CBS – This channel includes a combination of paid and free content. The free content is limited but includes full episodes the day after they air on TV.
- NBC – This channel includes a mixture of paid and free content and the ability to watch an entire season of certain shows.
- Comet TV – Science fiction streaming, including old black and white classics and more modern offerings such as Stargate SG-1.

If you already have a Roku unit, this is a great way to add content and start watching movies, TV shows, news, and your other favorite programming for free.
