

Internet Speed Worksheet

What speed is best for you?

Part of choosing the right Internet plan is future use. Avoid buffering and slowdowns as you grow, because the average household now has at least 7 Internet connected devices, and is growing.

Email & Surf

Router+WiFi
RECOMMENDED

15M/3M

Mbps

Best for 1-3 devices

Streaming & Social

Router+WiFi
RECOMMENDED

Most Popular!

30M/5M

Mbps

Best for 4-8 devices for a home and business. Works when usage is concentrated at night or many users at once.

4K, Upload Efficient, Work from Home

Router+WiFi
RECOMMENDED

50M/10M

Mbps

Best for 9+ devices for optimum streaming, gaming, & fast large file transfers. Works best when usage is concentrated day or night, or when many users use at once.

How many devices do you have? _____

Is most of your use at one time of day? _____
